

TEJAS SHARAD KUTE

Artificial Intelligence & Machine Learning · Full-Stack Developer

+91 8976550171 | tejaskute284@gmail.com | linkedin.com/in/tejas-kute-512aa2363 | github.com/tejaskute284 | Mumbai, India

PERSONAL DETAILS

Full Name	Tejas Sharad Kute
Father's Name	Sharad Ramchandra Kute
Mother's Name	Manisha Sharad Kute
Date of Birth	24 July 2007
Contact No.	+91 8976550171
Email	tejaskute284@gmail.com
Marital Status	Single

OBJECTIVE

Motivated 2nd-year B.Tech student specialising in Artificial Intelligence & Machine Learning, seeking an internship to apply analytical, problem-solving, and development skills on real-world challenges while expanding expertise in AI, full-stack development, and cybersecurity.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning <i>Atharva College of Engineering, Atharva University Mumbai · 2nd Year</i>	Mumbai, India Expected 2029
– Relevant Coursework: Machine Learning, Deep Learning, Data Structures, Python Programming, Cybersecurity Fundamentals	
Higher Secondary Certificate (12th) – Science <i>Swarajya Senior Secondary School · NWAC Board</i>	Mumbai, India 2025
– Percentage: 81%	
Secondary School Certificate (10th) <i>St. Arnold High School</i>	Mumbai, India June 2023
– Percentage: 86%	

EXPERIENCE

Web Development Intern <i>Aerus Infotech Solutions Pvt. Ltd.</i>	Navi Mumbai, India Internship Period
– Led development of a Housing Society Maintenance Management System (HSMMS) covering 8 modules — resident management, maintenance billing, complaint tracking, and security gate management.	
– Built role-based access control (RBAC) for 4 user personas (Admin, Resident, Staff, Security Guard) using Node.js/Express and React.	
– Designed and integrated RESTful APIs connecting MySQL to both React and vanilla JS clients, ensuring consistent data across interfaces.	
– Authored full project documentation — PRD, TRD, backend/frontend guidelines — compiled into a developer-facing Markdown guide.	
– Resolved Node.js backend and React environment setup issues collaboratively, improving team onboarding efficiency.	

PROJECTS

CryoNex – Cold-Chain Logistics Platform HTML5 · CSS3 · JavaScript (ES6) · Tailwind CSS · Leaflet.js · Chart.js · Anime.js Collaborators: Aaryan Raorane, Shreya Desai
– Built a pharmaceutical cold-chain logistics platform with real-time telemetry monitoring across 6 global hubs (SIN, FRA, LHR, GVA, HND, BOM) via an interactive Leaflet.js map.

- Developed a multi-step Procurement Wizard with dynamic route calculation and cross-console state sync via localStorage and sessionStorage.
- Implemented automated excursion alerts (temperature, pressure, battery) and CSP security headers to mitigate XSS risks.

NexusChat – Real-Time Chat Application

Python (FastAPI) · React (Vite) · Tailwind CSS v4 · MongoDB · WebSockets · JWT · Bcrypt | Collaborators: Aaryan Raorane, Shreya Desai

- Developed a full-stack real-time chat app using FastAPI backend and React (Vite) frontend; WebSockets enabled near-instant message delivery.
- Secured with JWT authentication, Bcrypt password hashing, rate limiting, and input validation against brute-force attacks.
- Integrated async MongoDB (Motor driver) for scalable storage, served through an ASGI server.

FlowState – Focus OS

Cyber Cypher · NMIMS National Hackathon 2025

React 18 · Vite 6 · TypeScript · Tailwind CSS 4 · Framer Motion · Lenis | Collaborators: Aaryan Raorane, Shreya Desai

- Designed and shipped a premium productivity OS concept in under 18 hours at Cyber Cypher (NMIMS National Hackathon 2025), qualifying Round 1 under competitive pressure.
- Built modular React 18 + TypeScript architecture with a custom design system, glassmorphism UI, Framer Motion animations, and Omni-Search (Cmd+K) command palette.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript (ES6), TypeScript, HTML5, CSS3, Java (Learning)

Frameworks & Libraries: React, FastAPI, Node.js, Express.js, Tailwind CSS, Framer Motion, Chart.js, Anime.js, Leaflet.js

AI / ML Tools: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy (Currently Learning)

Databases: MongoDB, MySQL

Tools & Environments: VS Code, Dev-C++, Git, GitHub, Vite

Security Concepts: JWT, Bcrypt, CSP Headers, Input Validation, Rate Limiting

Operating Systems: Windows, Linux (Basic)

CERTIFICATIONS

- Programming for Everybody (Getting Started with Python) — University of Michigan, Coursera | Mar 2026 | ID: C6FKEHL7IVD4
- Python Data Structures — University of Michigan, Coursera | Mar 2026 | ID: I2NLN7OUFDGT
- Introduction to Java & Object-Oriented Programming — University of Pennsylvania, Coursera | Mar 2026 | ID: 4OU011SXXPT8
- Build a Fast Typing Game using Java Swing — Coursera | Mar 2026 | ID: 1V819NICNVX4
- Management Skills for New Managers — United Latino Students Association | Dec 2025 | ID: MGEYMJNXV1PQ
- Teamwork Skills: Communicating Effectively in Groups — University of Colorado Boulder | Dec 2025 | ID: QU9WEBM95PNT
- Grow as a Manager — United Latino Students Association | Dec 2025 | ID: 6CI71SGZCDZM
- Computational Thinking for Problem Solving — University of Pennsylvania | Jan 2026 | ID: 9JE4BRNUG2ZF
